

**Model : TN**

- Widely used for light trucks, construction machines, yachts, etc
- Signal output with high precision
- Fuel suction and return
- High quality stainless steel
- Long using life, anti-vibration
- Options of different electronic connectors and fitting type
- Suction / return pipe or air ventilation can be customized
- Level alarm, temperature alarm
- Easily changable structures with short developing cycle

**Specifications**

- **Material:** Stainless steel
- **Length range:** 150 to 700mm
- **Assembly:** SAE standard 5 holes flange or 6 holes flange, bayonet twist lock is also available
- **Connector:** Brand Delphi, Tyco or others is available according to customer's Requirement
- **Wire:** PVC material (PA corrugated pipe cover is optional )
- **Supply voltages:** 10 to 32V
- **Rated current for alarm switch:** 500mA
- **Output signal:** Resistance, voltage, current or CAN-BUS signal
- **Resolution range:** 10 to 40mm
- **Operating temperatures:** - 40 to 85°C
- **Protection rank:** IP67
- **Option:** high/low alarm
